MADISON STATE JOURNAL (WI)	

CIA campus recruiting forum set for Thursday

21 September 1985

A Forum on Campus Recruitment by the Central Intelligence Agency will be held Thursday at University of Wisconsin-Madison's Memorial Union Theater beginning at 1 p.m.

STAT

The forum, sponsored by the UW-Madison Faculty Senate, is for students, faculty, staff and others interested in presenting their views. It will begin with presentations by scheduled speakers, followed by an open discussion period.

The Faculty Senate voted in May to hold the hearing at the request of students who had protested CIA recruitment on campus. The senate also voted to reaffirm faculty policy of allowing all bona fide recruiters to use campus facilities, and recommended that all university placement services post the following statement:

"University placement services exist for interested students who seek employment to meet voluntarily with potential employers of their choice to exchange information. The scheduling of campus visits by recruiting representatives does not imply university endorsement of the potential employer or conditions of employment."

Professors Peter Eichman and Joel Robbin are co-chairmen of the forum. They will report back to the Faculty Senate on the results of the hearing.
